

# Vermont Fish & Wildlife Department

## Willoughby River

### Streambank Management Area

#### General Description

The Willoughby River is the largest tributary of the Barton River, which flows into Lake Memphremagog in Coventry, VT. Originating from Lake Willoughby in Westmore, the Willoughby River travels nine miles until its confluence with the Barton River, joining with its main tributaries – the Brownington Branch and Lords Brook – along the way. Willoughby River SMA provides access to the Willoughby River’s productive coldwater fishery, with Rainbow and Brown Trout present throughout, and Brook Trout available primarily in Lords Brook. Willoughby Falls in Barton is a premier destination to witness Steelhead, the migratory form of Rainbow Trout, leap over the cascades as they travel upstream.

#### About Streambank Management Areas

Streambank Management Areas (SMAs) were purchased by the Vermont Fish & Wildlife Department to ensure access to the state’s rivers for angling and other recreation, and to improve habitat for aquatic species.

The following maps are for illustrative purposes only. No warranty as to the accuracy or the usefulness of the data is expressed or implied. The sign to the right indicates SMA lands.

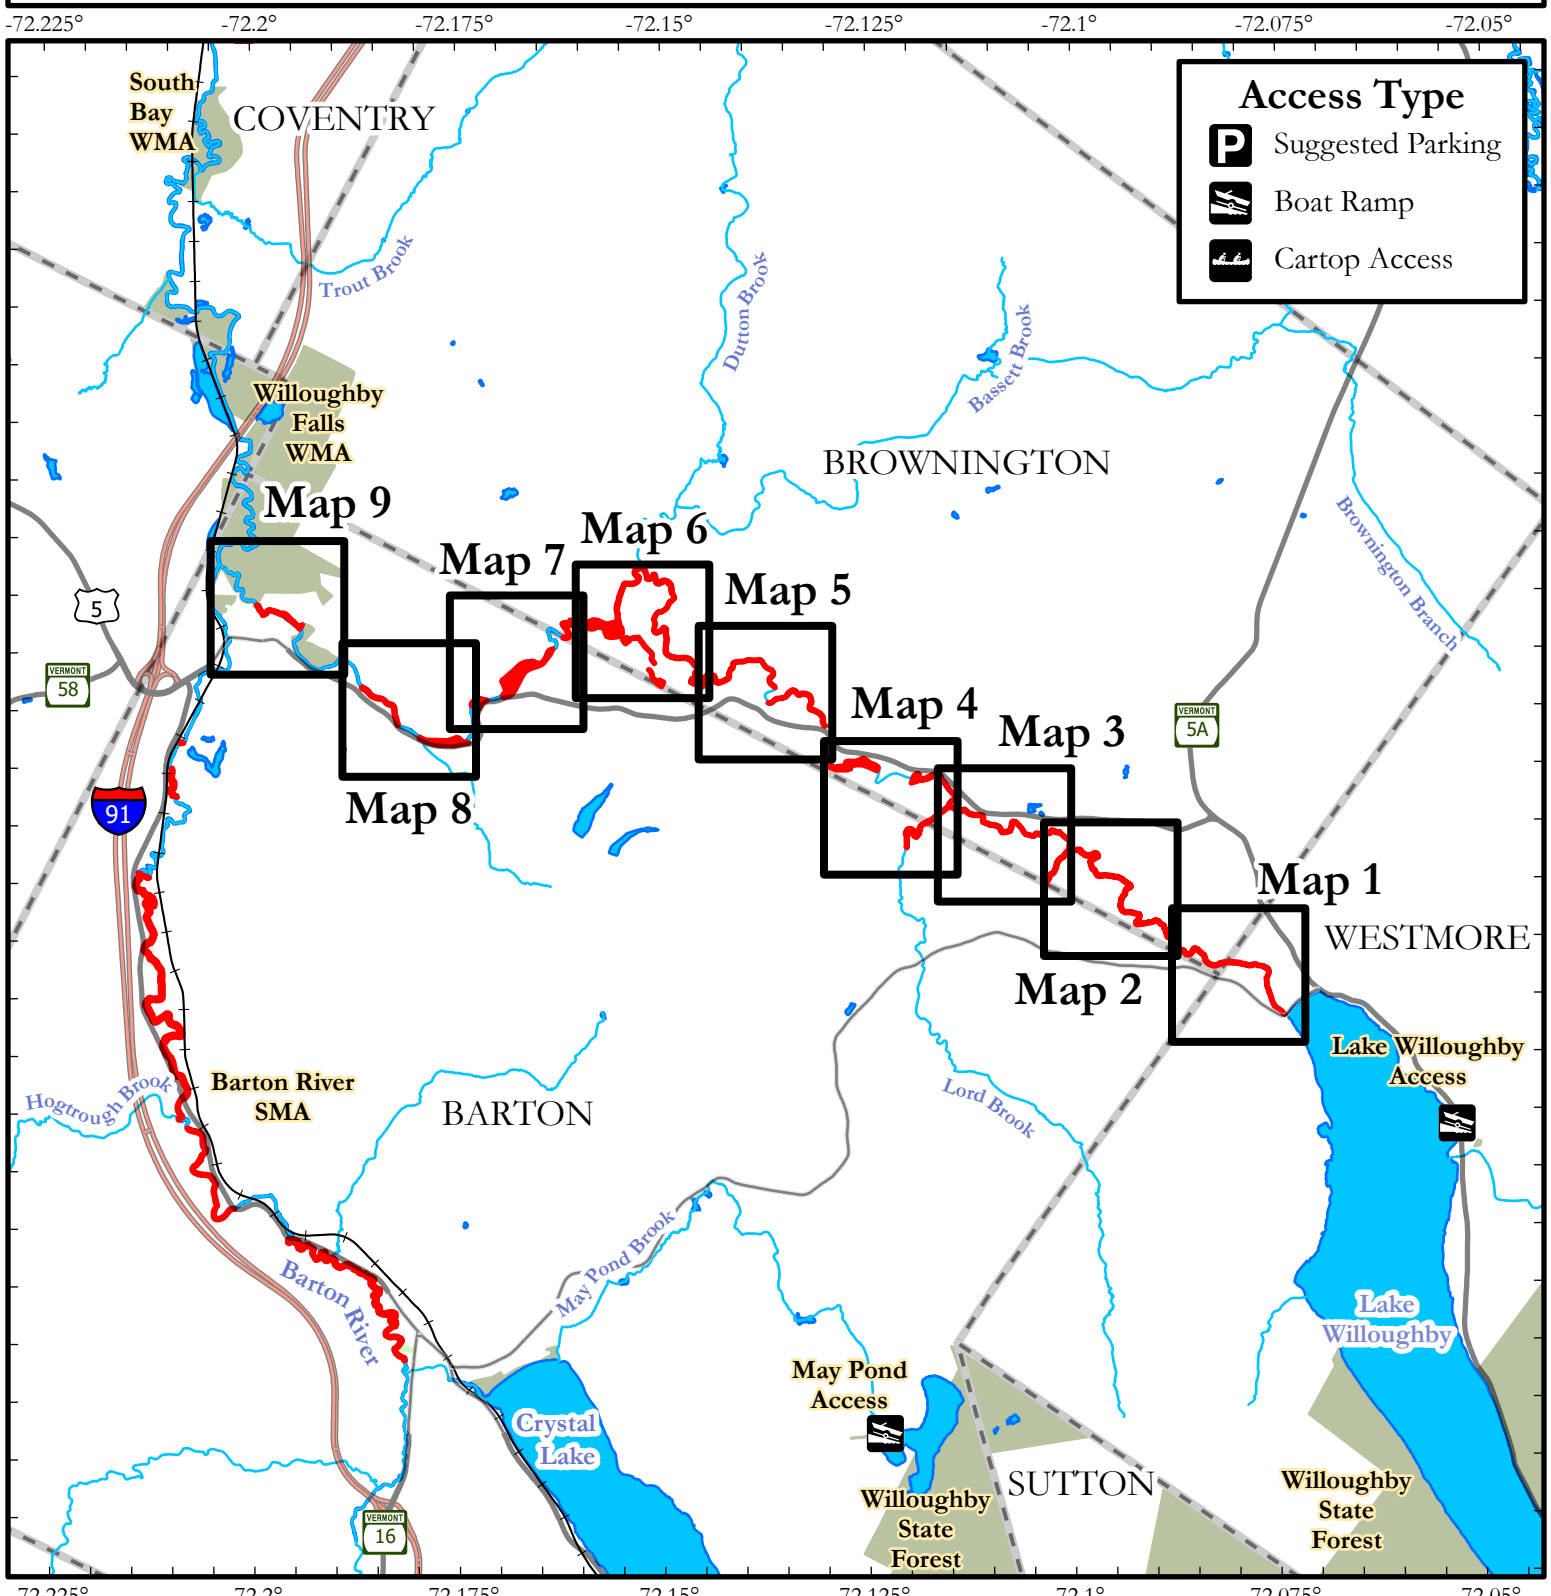

For more information regarding Barton River SMA, please contact the St. Johnsbury Fisheries office at: (802) 751-0100.
